

---

**Session Title:** [FC1] Optical Convergence Networks

**Date:** August 29, 2014 (Fri.)

**Time:** 08:30-10:00

**Room** Room C

---

**FC1-1**

**08:30-09:00**

**[Invited] Wired and Wireless Seamless Links for Resilient and Low-Latency Networks**

Tetsuya Kawanishi (NICT, Japan)

**FC1-2**

**09:00-09:30**

**[Invited] Improvement of Channel Bandwidth in Optical Wireless OFDM Link Based on Visible Light Emitting Diode Using Compressive Sensing**

Yong-yuk Won (Yonsei University, Korea) and Sang Min Yoon (Kookmin University, Korea)

**FC1-3**

**09:30-10:00**

**[Invited] Photon Pair Sources for Quantum Information Networks and Remote Sensing Systems**

Jae-ho Han (Korea University, Korea)
