Important Dates

- Abstract submission: January 18, 2019 (23h59 Hawaii Time)
- Full paper submission: January 25, 2019 (23h59 Hawaii Time)
- Paper notification: March 5, 2019 (23h59 Hawaii Time)

Accepted contributions will be included into the ICWE 2019 Springer LNCS proceedings. The best papers will be selected to be proposed, in extended form, as part of a special issue of the Journal of Web Engineering.

Organization

- In-Young Ko, GENERAL CHAIR
  Korea Advanced Institute of Science and Technology
  South Korea
- Flavius Frasincar, PC CO-CHAIR
  Erasmus University Rotterdam
  the Netherlands
- Maxim Bakaev, PC CO-CHAIR
  Novosibirsk State Technical University
  Russia

Topics

- Web application modeling and engineering
- Web mining and knowledge extraction
- Web Big Data and Web data analytics
- Mobile Web applications
- Web of Things applications
- Social Web applications
- Web crowdsourcing and human computation
- Semantic Web and Linked Open Data applications
- Quality and accessibility aspects of Web applications
- Web composition and mashups
- Web user interfaces
- Security and privacy
- Web programming
- Web services, computing, and standards

About the Host City – Daejeon

Mecca for Science & Technology in Korea

The city of Daejeon is a leading hub in the field of R&D and higher education in Northeast Asia. Daejeok Innopolis started in 1973 as the first government funded Research Park. Daejeok Innopolis is a unique science cluster including over 70 world class research institutes with more than 20,000 researchers and many higher education centers, including Korea Advanced Institute of Science and Technology (KAIST). With regard to this infrastructure, Daejeon is known as the Silicon Valley of Asia. Daejeon has been selected as the site for the headquarters of the International Science Business Belt, a large-scale project initiated and funded by the national government to nurture and develop basic sciences including life sciences as well as applied sciences into advanced technologies.
